

I recently worked with [one of your jewelers] to create a ring and picked it up earlier this week – I LOVE IT! It is EXACTLY what I had envisioned. From the beginning of the process to the moment I saw it, I have had a great experience. I came in to the store never having worked with a jeweler and no technical understanding of how jewelry is made, but [your jeweler] made me feel comfortable and confident that he could translate my ideas into the ring I wanted. The way I was explaining the design could be likened to a car owner trying to explain a noise in their car – but [he] got it! His patient, easy-going, but professional manner made each visit enjoyable and efficient. He is such a great asset to Hyde Park and I wanted to let you know that not only will I gladly refer others to him and Hyde Park, I am coming back in to have him make a matching piece.
